## CAREER OBJECTIVE

To build a successful career by applying my knowledge and skills to drive organizational growth, while continuously improving and delivering impactful results through dedication and innovation.

## EDUCATION

### Kongu Engineering College

2022 – 2026 | Erode, Tamil Nadu.

*B.E - Computer Science and Design*

Pursuing a B.E. in Computer Science and Design (CGPA: 8.01).

### Ponnu Matric School

2020 – 2022 | Dharapuram, Tamil Nadu

*Higher Secondary & Secondary Education*

Completed HSC with 93% and SSLC with 94%.

## SKILLS

- C, Java, Python
- HTML, CSS
- JavaScript, React.js
- MySQL, Mongo DB
- Figma

## PROJECTS

### BMS

Bus Management System is a **Figma** UI/UX design project focused on creating an easy-to-use interface for managing bus operations and improving the user experience.

### NovelNest

NovelNest is built with **HTML, CSS, and JavaScript**. It lets users add, delete, and organize books easily in the browser without any account or database.

### House Price Prediction

The Boston House Price Prediction project uses **Machine Learning** to estimate housing prices based on features like crime rate, number of rooms, and location. It demonstrates regression techniques in Python using datasets like the Boston Housing dataset.

### RMS

Restaurant Management System is a Java console project where users can order food and admins can manage menu items, delivery status, and delivery person details. It uses **Object-Oriented Programming** concepts and connects to a MySQL database using JDBC to store orders, food items, and delivery information.

## CERTIFICATIONS & ACHIEVEMENTS

- Privacy and Security in Online Social Media in NPTEL
- Java Essentials in Infosys Springboard
- Second prize in Problem Solving Competition at KEC

## AREA OF INTERESTS

- Machine Learning
- DBMS
- UI Design

## EXTRACURRICULAR ACTIVITIES

### Computer Science and Design Coding Club of KEC

2023 – 2025

Executive member

### Computer Society of India

2023 – 2024

Executive Council Member

## SOFT SKILLS

- Leadership
- Team Work
- Adaptability
- Time Management
